Web developer | [abhay.csgo001@gmail.com](mailto:abhay.csgo001@gmail.com) | +91 99589 64761  
[linkedin.com/in/thoughtlessnerd](https://www.linkedin.com/in/thoughtlessnerd) | [github.com/thoughtlessnerd](https://github.com/thoughtlessnerd)

## Skills

---

**Languages:** Javascript, Node JS, Python, HTML5, CSS3

**Technologies:** React, Typescript, Express, Node, React-native, MongoDB

## Professional Experience

---

### Freelance Fullstack Developer

June 2022 - present

- Created the **frontend** of <https://aodiconsulting.com> purely in HTML and CSS without the use of any libraries.
- Developed a web app for the Terranova museum in Finland using Express, Node, HTML, and CSS, working on both the backend and frontend.
- Designed and developed the NFT generator for [Springer's NFT](#) using Node.js scripts to generate randomly generated frames and then encode them into GIFs to produce 5555 unique GIFs with different traits.

## Projects

---

### Logic Gates node editor (<https://thoughtlessnerd.github.io/logic-gate-node-editor-v1/>)

- Developed a project using pure JavaScript in HTML focused on real-time logic gates circuit simulations. Inspired by Sebastian Lague's Digital Logic Sim and Blender's node editor, I incorporated their shortcut keys and UI into this project.

### Piano (<https://thoughtlessnerd.github.io/Random-stuff/Piano/>)

- I made this piano using pure Javascript and Html
- Focused on making a little project in which i use the **best practices** of writing code i recently learned from a book "The Pragmatic Programmer"
- Did my best to keep the **code future proof** and **error free** and **readable**

### Web Developer portfolio (<https://thoughtlessnerd.github.io>)

- I am working on my **portfolio site** currently. Making it in Typescript, React Js and CSS.
- Focused on making the most beautiful site I've ever made and showing most of my skills in this.
- Also practising my **UI/UX** skills side by side.

## Education

---

Bhagwan parshuram institute of technology • **B. Tech in Electronics and communication engineering**

## Interests

---

User Interfaces • Web design • Web development • Graphic Design • NFTs • App development
